5

Search Function

Search items by keywords with results based on titles, descriptions, and categories.

6

Watchlist & Saves

Items that a user likes can be tracked and saved in a watchlist.

Product Filtering

Feature: Filter products by category and sort by price/condition.

Buyer Benefits:

- Quickly find relevant products.
- Filter by category (textbooks, electronics, etc.).
- Sort by product condition (new, mint, good, fair).

Seller Benefits:

- Sort products by price (low to high, high to low).
- Price items competitively based on market trends.

Key Features:

- Real-time updates.
- Multiple category selection.
- Clear filter display.

Private Chat

Feature: Real-time messaging between buyers and sellers.

Buyer Benefits:

- Ask questions and clarify product details.
- Access chat history at any time.

Seller Benefits:

- Respond quickly to buyer inquiries.
- Discuss pricing, shipping, and pickup details.

Key Features:

- Access chats from the “Messages” pages
- Real-time messaging with saved history

Seller Profiles and Reviews

Feature: View seller profile and reviews for trust and transparency.

Buyer Benefits:

- Evaluate seller trustworthiness via ratings and feedback.
- View verified purchase reviews.

Seller Benefits:

- Respond to buy feedback and improve.
- Build a reputation based on customer reviews.

Key Features:

- Seller profile with transaction details.
- Rating system with feedback for each transaction.

Email Verification

Feature: Platform access limited to verified UofT students and faculty.

User Benefits:

- Ensures only Uoft-affiliated users can buy and sell.
- Improves platform security and trust.

Key Features:

- Tcard verification during registration.
- Two-step email verification for added security.

Search Function

Feature: Search for products using keywords, categories, and filters.

Buyer Benefits:

- Find specific items quickly using the search bar.
- Results based on product titles, descriptions, and categories.

Seller Benefits:

- Use advanced filters to find personalized listings.

Key Features:

- Search bar placement on main pages
- Real-time search result updates.
- Display of result count for better navigation.

Watchlist for Saved Items

Feature: Items that a user likes can be tracked and saved in a watchlist.

User Benefits:

- Saved items can easily be found at a later date.
- Receive updates on price and location changes.

Key Features:

- Add items to watchlist through the product page.
- Access watchlist from a dedicated page.

User Story Walkthroughs

The Sustainable Seller

- Wants to sell their textbooks
- Looking to sell as fast as possible
- Does not care much about price

The Bargain Hunting Buyer

- Looking to furnish their apartment
- Values item price over condition
- Doesn't want to travel far

Team Reflection

Team Structure

- **Defined Roles**: Clear roles (Project Manager, Software Lead, BE Developer, FE Developer, UI/UX Designer) streamlined tasks and accountability.

Challenges & Solutions

- **Time Management**

  Challenge: Balancing group deliverables with busy schedules.

  Solution: Regular sprints, stand-ups, and Jira tracking kept us aligned and on schedule.

- **Communication**

  Challenge: Occasional misalignment led to confusion between some team members.

  Solution: Frequent updates on WhatsApp and Zoom meetings helped clarify tasks and resolve issues collaboratively.

Lessons Learned

Effective Coordination: Clear workflow and documentation kept us aligned and efficient.

Conflict Resolution: Democratic voting ensured fair and collaborative decision-making.

Area of Improvement

- **Equitable Workload**: Ensure equal and fair contributions across all team members.
- **Better onboarding**: Dedicate more time to onboarding documentation to bridge skill gaps across the team

LLM Usage Reflection

LLM Features

1. Generate Product Description when creating a listing

2. AI Contextualized Product Search
